

**AMENDMENT TO AN  
ORDINANCE REGULATING DRAINAGE  
INTO THE SANITARY SEWER SYSTEM  
IN THE VILLAGE OF EDEN, WISCONSIN**

The Village Board of the Village of Eden does hereby ordain as follows:

The entire ordinance regulating drainage into the sanitary sewer system in the Village of Eden is amended to read as follows:

**SECTION 1** – No person, firm, corporation or any other owner or occupant shall connect any rainwater leader drain tile from footings of buildings, foundation drains, sump pump discharge (except for a sealed sump pump incorporated into a sanitary sewer/wastewater system), floor drains which are connected directly to an underground footing or building drain or any similar connection which discharges storm water, surface water, ground water, roof runoff or subsurface drainage with the public sanitary sewer which empties into the sewage disposal plant maintained by the Village of Eden.

**SECTION 2** – Any person, firm, corporation or any other person having ownership or occupancy of any building or structure in the Village of Eden whereon any connection as described in Section 1 exists which either directly or indirectly discharges into the sanitary sewer plant connected to the sewage disposal plant maintained by the Village of Eden shall remove such connection within three (3) days after adoption and posting of this ordinance.

**SECTION 3** - No person, firm, corporation or any other person having ownership or occupancy to any building or structure in the Village of Eden shall discharge or cause to be discharged any of the following substances into the public sanitary sewer which empties into the sewage disposal plant maintained by the Village of Eden:

1. Any gasoline, kerosene, benzene, toluene, ethylbenzene, xylene, naphtha, fuel oil or any flammable or explosive liquid, solid or gas;
2. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any wastewater treatment process, constitute a hazard to humans or animals, create a public nuisance or create any hazard in the receding waters of the treatment plant.
3. Any waters or wastes having a ph lower than 5.5 or having any other corrosive property capable or causing damage or hazard to structures, equipment and personnel of the sewage system.
4. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in the sewers or other interference with the proper operation of the sewerage system such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers,

tar, plastics, wood, unground garbage, whole blood, paunch manure, excessive amounts of hair and fleshings, entrails and paper dishes, cups, milk containers, sanitary napkins, disposable diapers, either whole or ground by garbage containers.

5. Any radioactive wastes or isotopes of such half-life or concentration in quantities that exceed the limits established by the director and in compliance with applicable state and federal regulations.
6. Detergents, surface-active agents or other substance that may cause excessive foaming in the sewerage system.
7. Storm water, surface water, ground water, roof runoff and that described in Section 1 of this ordinance together with non-contact pooling water or unpolluted industrial process waters.
8. Any wastewater which, in conjunction with other wastewater, will cause the temperature of the raw wastewater entering the treatment plant to exceed 104°F. (40°C.) or which will inhibit the biological activity in the treatment plant resulting in interference.
9. Any substance which creates a fire or explosion hazard in the sewerage system including, but not limited to, waste streams with a closed cup flashpoint of less than 140°F. or 60°C. using the test method specified in 40CFR261-21 and Wisconsin Administrative Code Section NR605.08(2).
10. Any substance which results in the presence of toxic gases, vapors or fumes within the sewerage system in a quantity that may cause acute worker health and safety problems.
11. Any water or waste containing fats, wax, grease, or oil whether emulsified or not, in excess of 100 mg/L or containing substances which may solidify or become viscous at temperatures between 32° and 140°F. (0° and 60°C).
12. Petroleum oil, nonbiodegradable cutting oil, or products of mineral oil origin, in excess of 100 mg/L or in amounts that will cause interference or pass through.
13. Any substances regulated as hazardous waste under federal or state law.
14. Any substance that will cause the Village to violate its WPDES permit.
15. Used antifreeze, motor oil, brake fluid, transmission fluid, hydraulic fluid, oil-based paint, and paint thinners if the material is in a collectible and recyclable quantity.
16. Medical wastes or infectious wastes, except as specifically authorized by the sewage disposal plant operator.

**SECTION 4** – The building inspector, and or waste water operator and or other appointed official shall have the right to examine and inspect all premises within the corporate limits of the Village or which is connected with the sewage disposal plant

maintained by the Village of Eden for the purpose of determining whether any violations of this ordinance exist.

**SECTION 5** – No person, firm, corporation or other owner or occupant of any building or structure shall prevent, delay or interfere with the building inspector while engaged in the performance of the duties imposed by this ordinance.

**SECTION 6** – Any person, firm or corporation or other owner or occupant violating any provision of this ordinance shall be subject to a forfeiture of not more than \$1,000; each day that such violation shall continue shall constitute a separate and distinct offense.

**SECTION 7** – The Village Clerk is hereby directed to publish a copy of this ordinance in the Campbellsport News as a Class One notice.

Adopted by the Village Board of the Village of Eden this \_\_\_\_\_ day of \_\_\_\_\_, 2008.
